What is Cause Related Marketing?

Cause Related Marketing is defined as marketing which:

1. Is collaborative and mutually beneficial for your organization and BC Cancer Foundation
2. Connects and engages employees/business owners and consumers to social goals
3. Clearly communicates the value of the program to the community partner

PROGRAM GUIDELINES

The following outlines the detailed criteria under which BC Cancer Foundation will consider and manage Cause Related Marketing partnerships:

Best in Class

Relationships will generate a positive impact on the BC Cancer Foundation brand and reinforce BC Cancer Foundation values and reputation.

Strategic Alignment

Potential partners' values, organizational culture and Cause Related Marketing program objectives must be aligned with BC Cancer Foundation's values and Cause Related Marketing strategy, in order to deliver clearly identifiable synergies.

Resource Requirements

BC Cancer Foundation seeks relationships where the resources required are proportionate to the benefits received.

Roles and Responsibilities

Joint Cause Related Marketing campaigns resulting from new partnerships should be well integrated into both parties' business strategies in order to generate the most strategic leverage. Roles and responsibilities of all relevant individuals and departments will be defined and well understood prior to the commencement of a new campaign. Whenever possible, BC Cancer Foundation seeks to work directly with the partner rather than through third party intermediaries.

Evaluation and Reporting

BC Cancer Foundation will work with its Cause Related Marketing partners to measure the short- and long-term success of any joint endeavor and its ability to meet mutually agreed upon objectives.

Benefits

Fair revenue must be received by BC Cancer Foundation, and partnerships will target a minimum \$5,000 annual contribution to BC Cancer Foundation. All partnerships must generate value for BC Cancer Foundation and the company's stakeholders and customers. Where possible, partners will make best efforts to promote and facilitate direct giving to BC Cancer Foundation.

Budget

All project budget constraints and availability will be identified prior to commencement of a Cause Related Marketing campaign. Expenses and staff/volunteer involvement on the part of BC Cancer Foundation will be clearly understood prior to the commencement of the program.

Promotion

BC Cancer Foundation will review and approve all promotional materials involved in any partnership, including but not limited to brochures, media releases, public service announcements, posters, scripts, web pages, advertising and signage. Promotional materials that refer to BC Cancer Foundation can only be used with written permission from BC Cancer Foundation. Furthermore, changes to BC Cancer Foundation's promotional material associated with the partnership can only be made with BC Cancer Foundation's review and prior approval.

All promotional materials must clearly state the percentage of proceeds and/or the portion of the ticket price/ purchase that will benefit BC Cancer Foundation.

Any representation of the BC Cancer Foundation logo on a product and/or print and online collateral must include attending language that specifies the relationship and BC Cancer Foundation's connection to the product and/or material in question. BC Cancer Foundation must review and approve all such materials prior to implementation. Any use of logo on Cause Related Marketing partner website should link back to home page (www.bccancerfoundation.com) and is to be used only during active Cause Related Marketing campaign.

Endorsement

When BC Cancer Foundation's brand would appear alongside a particular product or service, BC Cancer Foundation will conduct its own independent evaluation of the product or service, including a review of published research, to make a decision about the proposed partnership. However, BC Cancer Foundation will not endorse or approve of any product or company, and a statement to this effect will be included in any promotional material associated with any Cause Related Marketing product- or service-based campaign.

Database

BC Cancer Foundation does not allow its partners direct access to its database. BC Cancer Foundation's privacy policy is available at <http://bccancerfoundation.com/we-respect-your-privacy>

Accountability and Independence

BC Cancer Foundation actively seeks opportunities to work with external organizations to achieve shared objectives. However, it is important that BC Cancer Foundation maintains its independence and does not allow an external partnership to bring its name into disrepute.

Fiscal Responsibility

BC Cancer Foundation will require that in any fundraising project run by a partner, the amount spent on expenses (event expenses, advertising) does not exceed the established industry standard level for that type of event or promotion. BC Cancer Foundation will not cover operational expenses or start-up costs for a Cause Related Marketing campaign. If campaign expenses are greater than the total collected, the group conducting the campaign will be responsible for payment of these additional expenses. BC Cancer Foundation does not issue tax receipts for Cause-Related Marketing Programs, in compliance with Canada Revenue Agency Guidelines.

Legal Agreement
